data sheet

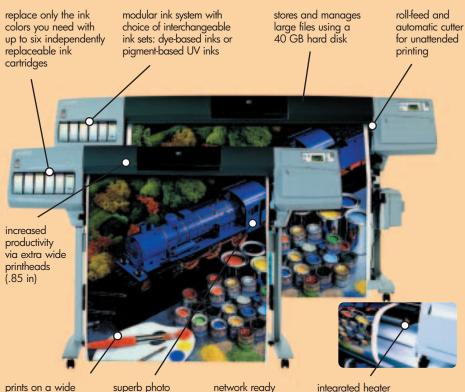

hp designjet 5500 series printers 5500 • 5500 uv • 5500ps • 5500ps uv (42- and 60-inch models)

| | The HP Designjet 5500 series printers turn around ready-to-sell and distribute prints at some of the fastest speeds available—without compromising image quality. With HP's intelligent printing solutions, print service providers, GIS professionals, and graphics designers will benefit from a simplified workflow, unattended operation, and flexible options that serve a variety of customers or departments. |
|----------------------|--|
| high productivity | fast printing that's ready-to-sell or distribute—new production print modes deliver professional image quality at speeds of 100 sq ft/hr output for glossy and 189 sq ft/hr for coated' media; 569 sq ft/hr printing using maximum speed mode |
| | printing when you need it—transfer files at up to 4.5 megabytes per second using a powerful hp jetdirect 615n print server card |
| image quality | superb photo quality for all your large-format printing—a six ink, 1200 dpi writing system² and hp color layering technology provide a wide color gamut, continuous tones, and smooth color transitions |
| | match customer or corporate-specific colors—hp designjet 5500ps provides PANTONE® color matching for printing—you can print spot or process colors directly from your application |
| | consistent color throughout the entire job run—automatic closed-loop color calibration guarantees color consistency from the first print to the last |
| | predictable color management—hp designjet 5500ps supports offset printing emulations and ICC profiles for Macintosh[®] and Windows[®] for easy integration into your color workflow |
| intelligent printing | easy connectivity for multiplatform environments—new Web-file submitter provides a direct printing path using a driver-less printing workflow for UNIX[®], Linux, Mac OS, and Windows environments |
| | multi-language capability with extremely fast processing—support for up to seven internal printer languages: TIFF, JPEG, CALS/G4, HP RTL, HP-GL/2, Adobe[®] PDF 1.3³ and Adobe PostScript[®] 3^{™3} |
| | time-saving internal file management and storage—eliminate resending time for large files sent through the Web-file submitter; 40 GB hard disk stores large jobs even if the printer's power is turned off |
| | remote management—hp designjet webaccess uses any computer's Web browser for convenient, remote access to configurable printer alerts, job management, printer status, and ink and media usage |
| | ¹ available with dye ink ² 1200 by 600 dpi on glossy media ³ hp designjet 5500ps only |
| | |

The HP Designjet printing solution—HP printers, ink systems, and printing material—engineered and tested together to ensure uncompromising print quality, performance, and reliability.

hp designjet 5500 series printers

hp designjet 5500ps 42- and 60-inch models shown

prints on a wide range of media more than 50 supported media types

auality with up to 1200 x 600 dpi printing on glossy media network ready with fast hp jetdirect 615n print server card integrated heater ensuring optimal image quality when using the production print modes

highlights

- high power productivity professional, ready-to-sell output at 100 sq ft/hr for glossy and 189 sq ft/hr for coated' media
- remote printer management is fast and easy from any standard Web browser—using the hp designjet webaccess, you can conveniently manage your printer by using remote access to configure printer alerts, job management, printer status, and ink and media usage information
- Web-file submitter provides easy connectivity in multi-platform environments using a driver-less workflow
- flexible RIP options—the hp designjet 5500ps provides an Adobe PDF 1.3 and Adobe PostScript 3 built-in RIP and the hp designjet 5500 is RIP-ready for use with an array of external RIPs and GIS applications
- accurate, consistent color printing—the hp designjet 5500ps provides PANTONE® color matching for spot or process colors and closed-loop calibration for color consistency, print after print
- multiple press emulations using the hp designjet 5500ps as well as emulations for other hp designjet printers and Apple ColorSync[®] compatibility
- durable output—two year outdoor and five year indoor as a result of hp UV inks and the 3M[™] Match Component System[™]

¹ available with dye ink

hp designjet 5500 series printers at a glance

hp designjet 5500

- available 42-inch and 60-inch wide models
- ready for use with an array of external RIPs and applications
- 128 MB RAM
- 40 GB hard drive
- hp jetdirect 615n print server
- hp designjet webaccess
- internal languages: TIFF 6.0, JPEG, CALS/G4, HP RTL and HP-GL/2

hp designjet 5500ps

- 42-inch and 60-inch models available
- fully loaded with Adobe PostScript 3 built-in RIP
- 256 MB RAM
- 40 GB hard drive
- hp jetdirect 615n print server
- hp designjet webaccess
- internal languages support: Adobe PDF 1.3, Adobe PostScript 3, TIFF 6.0, JPEG, CALS/G4, HP RTL and HP-GL/2

two ink type configurations: hp designjet 5500 series with indoor dye inks for photo-realistic image quality and hp designjet 5500 UV series with outdoor UV inks for enhanced lightfastness

optional accessories

- 42-inch take-up reel
- 42-inch and 60-inch dye to UV ink upgrade kit
- 42-inch and 60-inch UV to dye ink upgrade kit
- 64 and 128 MB memory module

• 42-inch and 60-inch spindle

flexible options meet your business needs

The HP Designjet 5500 series printers work in any environment and integrate into your business by supporting varied workflow and connectivity options, two ink sets, and a wide range of media for standard and specialty applications.

- hp designjet 5500ps with Adobe PostScript 3 built-in RIP or hp designjet 5500, a RIP-ready version for use with an array of external RIPs and GIS applications¹
- support for up to seven internal printer languages including Adobe PDF 1.3², Adobe PostScript 3², TIFF 6.0, JPEG, CALS/G4, HP RTL, and HP-GL/2
- a modular ink system with a choice of two interchangeable ink sets—dye-based inks or pigment-based UV inks can be used in a single device
- support for a wide variety of photo, fine art, durable, and specialty media for indoor and outdoor graphics applications
- the ability to print on a variety of CAD media including bright white, coated paper for line drawings, clear film, and vellum

productivity

support and services

HP provides you with a variety of support options to assist you in the setup and maintenance of the HP Designjet 5500 series printers. Use HP's expert knowledge to help you make the most of your printer and ensure your equipment is running at peak efficiency. All models in this series start with a one-year warranty with free, onsite, next-business-day service. To further guarantee trouble-free operation, maximize the potential of your HP Designjet printer, or customize the printer for your unique business profile, consider upgrading your service and support options.

HP offers a comprehensive set of services and acquisition options that provide cost savings and business productivity gains—financing, user training, deployment strategies, regularly scheduled supplies and printer maintenance, and complete hardcopy environment management are available through HP Consulting, HP Outsourcing, HP Support, HP Education, and HP Finance. To find out more information go to the HP Services Web site at www.hp.com/hps

hp supplies maximize your productivity

HP's production print modes make it easy for you to achieve reliable, high-speed printing. And HP supplies, both ink systems and printing materials, are key to maximizing the number of prints you get per day—and per dollar.

- high-capacity (680 cc) ink cartridges and long-lasting printheads provide longer unattended printing and a lower cost of ownership
- extra wide hp jetexpress printheads (.85 inches) provide fast printing speeds
- reduced waiting and shortened total turnaround time due to support for productivity category media, including instant dry-time glossy/semi-glossy which support immediate lamination
- longer media rolls (up to 300 feet) plus high-capacity take-up reel (optional on 42-inch models) decrease intervention and boost productivity
- hp smart printing supplies track low-ink levels and worn printheads
